INDIVIDUAL ATTENTION

We understand that every child is unique and different. We try to individualize each child's educational experience in order to accommodate the differences. We have qualified counselor who identifies and council them, if they have any emotional or personal issues. We organize career counseling sessions which help the students to know the pros and cons of the different streams, courses and educational options and the career path it offers, thus the students can make a choice and get a career assessment that helps avoid the risk of change in career path later in life.

Every member of HGHS & JC family contributes in one or other way in taking care of students whether they are teaching or non teaching. Students are free to approach the counselor any time and share whatever they feel.

We organised workshops on Good Touch and Bad touch to increase the awareness.

WE organize several PTM'S to interact with the parents.

SAFE SCHOOL...SECURE TRANSPORT

Safety and security are given prime importance.

HGHS & JC is having tie up with local hospital for any emergency. Health records are meticulously maintained for every student.

The campus security staff is supported by technical system like surveillance cameras in every corner. There are 72 cameras are installed in entire campus. The entry and exit is completely security controlled.

The school runs a fleet of self owned buses with speed governor, CCTV camera and GPS system in place. Each school bus follows standard safety guidelines. Female staffs are compulsory in every bus.

HOLISTIC DEVELOPMENT

We believe that learning should not be limited by the walls of the campus, children should be given ample opportunity to go out, see and experience life as it is in the real world.
